Amber,

Greetings. I hope things are well with you and the campaign.

I just got back from vacation in Belize so I'm a little bummed to be back to reality and conference planning. Speaking of conference planning, Sheila asked me to

reach out again regarding the Mayor's welcome that we'll include in the program.
Can you send that over to us? Thanks!

Subject: [External] Join Mayors for Solar Energy

Dear Mayor Bieter,

As you know, moving to abundant and pollution-free renewable energy makes sense for communities all across America. That's why Environment America is bringing together mayors and local leaders who support moving forward with solar power.

Accelerating the growth of solar will not only mean cleaner air and a healthier environment, but also more local control of America's energy supply and improved resiliency of our electrical grid. Citizens can benefit from lower energy prices and local solar jobs to build and install renewable energy.

We applaud you for any steps Boise City has already taken when it comes to solar energy and other renewables. Today, we ask that you stand with mayors from across the U.S. by signing on to our letter: [Mayors for Solar Energy](#).

This letter has already been signed by a bipartisan list of over 200 local leaders who support solar energy in their communities and encourage others to do the same. We hope you'll join them by adding your name in support today via the form below.

Sign on at: <https://goo.gl/forms/962PLmGrNKq7G6Gy2>

Why sign on?

1. Stand with a growing community of local clean energy leaders,
2. Show your community that you are committed to solar power, and
3. Get insight and tools to help take solar to the next level in your city or town

For additional information about the project, please visit [our website](#) and check out our "[Ten Ways Your Community Can Go Solar](#)" Guide.

Thank you for your consideration, and I hope to hear from you soon.

Sincerely,

Bella Pucker
